

Deploying the code on HEROKU Cloud

Issues Faced:

I could not deploy my project on Heroku Cloud and I got this error below. After resolving this issue I will be able to deploy the code on the Heroku.

```
-----> App not compatible with buildpack: https://buildpack-  
registry.s3.amazonaws.com/buildpacks/heroku/java.tgz  
    Could not find a pom.xml file! Please check that it exists and is committed to Git.  
    More info: https://devcenter.heroku.com/articles/buildpacks#detection-failure  
!     Push failed
```
