

Deploying the code on HEROKU Cloud

Deployed on Heroku from the heroku CLI:

[Link for Heroku Deployment:](#)

<https://devcenter.heroku.com/articles/deploying-spring-boot-apps-to-heroku>

Please find the app on Heroku: <https://homefoodapp.herokuapp.com/>

Use the username: chefsathvik and password :s1234 for the chef login.

From the user side user can only submit the order.
